

The American Recovery and Reinvestment Act Reporting Requirements

Instructions for the Monthly Employment Report (Form: FHWA-1589)

This form is a guide for providing employment information on each ARRA project. Monthly employment information on each ARRA project is used by States for meeting the reporting requirements of Sections 1201 and 1512. In order for States to fulfill their reporting obligations, the States must collect and analyze certain employment data for each ARRA funded contract. The data requirement in ARRA extends beyond the number of workers at the work site and, therefore, FHWA has produced a form for guidance of the ARRA Project Contractors. This data to be reported is identified below and will be used by the States in developing Form 1587, which is to be submitted to FHWA.

The prime contractor or consultant shall complete a report for each month, beginning from the date of the Notice to Proceed and continuing until completion of the contract or September of 2012, whichever occurs sooner. This report is only required for contracts that use ARRA funds. Contractors and consultants must provide the required information for their own workforce as well as the workforce of all subcontractors that were active on their ARRA funded project(s) for the reporting month. The summary Form (FHWA 1589) must be completed and signed by the close of business on the 10th calendar day of each month for the preceding month's data.

The State requires the following data be provided by each contractor, consultant and funding recipient working on an ARRA project. The primary contractor or consultant for each project shall be responsible for reporting data for their firm as well as any and all subcontractors' data.

By submission of the electronic document, I certify and affirm that I am familiar with the information contained therein and that the information contained therein is true and accurate to the best of my knowledge, information, and belief.
